

### wellwizard

Designed with aggressive water in mind, only **Well Wizards** should be installed on a well, private water scheme or any water source that does not come from a public mains supply. The only copper cylinder available on the Irish market that doesn't require you to change anodes due to aggressive water.

The following cylinders can be modified for well, private water scheme or any water source that does not come from a public mains:

- MaxiPod®
- AquaPod
- HotHead®
- SolarPod
- EcoPod
- EcoPod Combination Unit
- EcoPod Combination Unit Deluxe
- Hot Water Generator®
- MagmaPod

Please see relevant specifications for individual cylinder details.

A - Well  
B - Well Wizard

C - Cold flow from well  
D - Coil flow

E - Coil return  
F - Hot water out
